

## PROFESSIONAL DEVELOPMENT

### LEARN THE FUNDAMENTALS OF ADDITIVE MANUFACTURING

Additive manufacturing is changing how manufacturers design and build products and it can result in higher productivity, fewer errors, improved cost and higher quality. Tooling U-SME offers a 10-course training series introducing engineers, designers, production workers and more to the basic principles of manufacturing and the methods and materials that are used in this process.

### FLEXIBLE AND CONVENIENT

Online classes are self-paced, typically taking 60 minutes to complete. They are easily and conveniently accessible on desktops and laptops, and on tablets and phones with the Tooling U-SME app.

### EFFECTIVE COMBINATION OF CLASSES

This comprehensive additive manufacturing training series is an excellent introduction to the fundamental concepts of this technology, including processes, materials, safety procedures, design, and more.
